MD Paediatrics

**Fellowship Trained in Neonatal & Perinatal Medicine (Australia)
Certificate in Clinician Performed Ultrasound (CCPU Pathway),
ASUM, Australia**

Languages Known- English, Kannada, Hindi

PROFESSIONAL SUMMARY

Neonatal and Paediatric specialist with over **5 years of clinical experience** across India and Australia, currently working in a **tertiary Level 6 NICU in Sydney, Australia**. Experienced in managing **extreme prematurity (22-24 weeks), critically ill neonates, and complex paediatric cases**, with strong procedural expertise and independent clinical decision making. Proven leadership in high acuity NICU setting.

Experienced in-

- Advanced neonatal ventilation (HFOV, NAVA, iNO)
- Therapeutic hypothermia
- Neonatal hemodynamic and point-of-care ultrasound
- High-risk delivery room resuscitation
- Neonatal procedures and intensive care leadership

Special interests-

- Neonatal hemodynamics
- Functional ultrasound
- Neurocritical care
- Academic advance neonatology
- Neonatal & Paediatric Nutrition

CORE CLINICAL EXPERTISE

- Neonatal Intensive Care (Level 6 NICU) (46-bed with SCN) Australia
 - Extreme Prematurity Management (22+ weeks)
 - Neonatal Ventilation (CPAP, HFOV, NAVA, Conventional)
 - Neonatal Resuscitation (NRP Certified)
 - Therapeutic Hypothermia & Neonatal Transport
 - Neonatal Sepsis, PPHN, RDS, ELBW care
 - Exchange Transfusion & Central Line Procedures
 - High-Risk Delivery Attendance
 - Developmental Follow-up Clinics
 - Multidisciplinary Neonatal Care
 - Research & academic publications
-

CURRENT ROLE

Consultant Level Fellow

Nepean Hospital, Sydney, Australia, Feb 2026 – Present

- Working in a tertiary Level VI NICU
 - Independently managed critically ill neonates including extreme prematurity and ventilated babies (iNO, HFOV, NAVA, CPAP, High Flow)
 - Conducting neonatal resuscitation at high-risk deliveries
 - Advanced NRP Instructor
 - Led individual rounds with registrars and junior residents.
 - On call duties with weekend cover
 - Managed TPN, Humavant (Human derived milk fortifier)
 - Using bedside ultrasound (cardiac, lung & cranial) for clinical decision-making
 - Leading night shifts and emergency situations
 - Involved in Neonatal Emergency Transport System referrals and neonatal transport coordination
-

EDUCATION & QUALIFICATIONS

- **Fellowship Trained in Neonatal & Perinatal Medicine-2026**
Nepean Hospital, Sydney, Australia
 - **Certificate in Clinician Performed Ultrasound, ASUM-2026**
ASUM Accredited, Australia – Ongoing advance training
 - **Doctor of Medicine (MD) in Paediatrics- 2023**
M.S.Ramaiah Medical College, Bangalore, Karnataka
 - **Bachelor of Medicine and Bachelor of Surgery (MBBS)-2019**
Mysore Medical College & Research Institute, Mysore, Karnataka
-

MEDICAL REGISTRATION

- **Australian Health Practitioner Regulation Agency (APHRA) -**
MED0002858222
 - **Karnataka Medical Council (KMC) – 127910**
-

PROFESSIONAL MEMBERSHIPS

- Australian Society of Ultrasound in Medicine (ASUM)
 - Indian Academy of Paediatrics (IAP)
 - Indian Medical Association (IMA)
-

PROFESSIONAL EXPERIENCE

1. Senior Registrar-

Nepean Hospital, Sydney, Australia (November 2024-February 2026)

- Managed Level VI NICU with preterm and critically ill neonates (≥ 22 weeks).
- Experienced in advanced ventilation modes (HFOV, CPAP, NAVA) and Nitric Oxide therapy.
- Assisted consultant leads daily rounds, clinical audits, and family communication sessions.
- Provided multidisciplinary and family centered care.

2. Registrar-

Manipal Hospital, Yeshwanthpur, Bangalore (September 2023- October 2024)

- Independently managed paediatric emergency, high risk deliveries and paediatric ward patients.
- Supervised junior registrars and led neonatal/paediatric resuscitations.
- Managed preterm, intensive paediatric cases in NICU & PICU.
- Skilled in central lines, USG guided accesses.

3. Resident- MD Paediatrics

M.S.Ramaiah Medical College, Bangalore (August 2020-August 2023)

4. Medical Officer

Unity Lifeline Hospital, Bangalore (2019-2020)

FELLOWSHIP & CERTIFICATIONS

- **Advanced Asthma Course- Certification, IAP respiratory chapter**
- **Paediatric Epilepsy Training (PET-1)- BPNA, UK**
- **American Health Association- BLS**
- **Neonatal Resuscitation Program (Australia)**
- **Paediatric Advanced Life Support (PALS)- IAP**
- **Advanced Ventilation Workshop- NNF**
- **Basic Course in Biomedical Research (ICMR)**

RESEARCH AND PUBLICATION

PUBLICATION-

- **Kamble P, Karumbaiah KP.** Influence of screen time on sleep in children with autism spectrum disorder in an urban population. *Arch Dis Child.* 2022;107(Suppl):A42
- **Gumathi B, Somashekar AR, Inamadar A, Kamble P.** Pulmonary function and salivary CRP marker in healthy adolescents with/without obesity: a cross-sectional study. *J Appl Bioanal.* 2025;11(8):44-53.

MD DISSERTATION

- Frequency of Hyperchloremia and its Association with AKI and Mortality in Critically Ill Children.
- Prospective observational study in a tertiary PICU evaluating hyperchloremia in critically ill children demonstrated a 12.4% prevalence, with significant association with acute kidney injury (OR 15.33) and increased mortality (OR 3.36). Findings highlight the importance of electrolyte monitoring and consideration of balanced fluid therapy in reducing morbidity.

ONGOING PROJECTS

- Outcomes post therapeutic cooling in neonates with perinatal asphyxia
- Diastolic dysfunction in term babies required prolonged oxygen requirement
- Serum Chloride levels in neonates and paediatric population and its implication in acute kidney injury and mortality.

AWARDS AND ACHIEVEMENTS

- **First Prize-** Scientific Paper Presentation, 36th South Zone & Karnataka State IAP Conference (2022)-“Electrolyte imbalance in critically ill children admitted to PICU”
- **Poster Presentation at RCPCH Conference Liverpool, UK 2022-** “Influence of sleep in children with Autism Spectrum Disorder in Urban Population”
- **Poster Presentation at Annual IAP Infectious Disease Conference-** “Super Refractory Status Epilepticus in a case of HSV Encephalitis”
- **Organised COMHED 2022 National Level conference**

PROCEDURAL SKILLS

- Neonatal & Paediatric Intubation and management of advance airway- >300
- UVC / UAC insertion/ Central lines- >100
- PICC line placement- >50
- Lumbar puncture- >200

- High-Risk deliveries attended- >2000
 - Chest drain insertion- >25
 - Exchange transfusion- >25
 - Neonatal ultrasound (cardiac, Lung & cranial screening)- >200
 - UGS guided venous accesses- > 50
-

PROFESSIONAL ATTRIBUTES

- Strong clinical decision-making
 - Leadership in ICU settings
 - Excellent communication with families
 - Team oriented and multidisciplinary approach
 - Organised health camps, breastfeeding awareness drives and national Paediatric Conference
-

CLINICAL LEADERSHIP/QUALITY IMPROVEMENT

- Protocol development
 - Audit participation
 - Morbidity & Mortality meetings
 - Teaching programs
 - Guideline implementation
-
